

# MSC OCTOBER WORKSHOP 2017

## OCTOBER 27 & 28 Calgary, AB

**Eduardo Cuevas**  
AMI Director of Training,  
The Montessori Training  
Centre of BC, Vancouver, BC

AMI Director of Training at the  
Montessori Training Centre of  
British Columbia, Canada for

the past eighteen years. His recent studies in a PhD program in Curriculum and Pedagogy at the University of British Columbia, (Vancouver) have sparked queries into Montessori's understanding of pedagogical encounter as expressed in her dictate to 'Follow the Child'. He is convinced that such insight determines the role of the teacher, and the ramifications of best practices in the prepared environment.

### SCIENTIFIC PEDAGOGY AND THE SCIENCE OF PEACE: PRACTICING PEACE IN THE CHILDREN'S HOUSE

“Establishing lasting peace is the work of education, all politics can do is keep us out of war; if help and salvation are to come they should only come from the children, for the children are the makers of man.” Maria Montessori

Peace is a lofty idea that somehow seems to escape us. Instead, peace needs to be experienced daily in our educational practice — one that brings about, and reinforces the long-awaited state of being.

This workshop explores the actors conducive to the embodiment of peace in the midst of the Montessori setting ... and beyond: the peaceful adult, the peaceful child and the peaceful environment.

Today more than ever, peace must go beyond a noble idea — a wishful desire; instead it must be an ongoing practice with specific, tangible acts rendering palpable outcomes — a science of peace that puts to rest even the threat of war.

**Friday evening talk open to parents, teachers, administrators and support staff.**

**Workshop open to all holders of a Primary Montessori Teaching Diploma.**

### FRIDAY EVENING KEYNOTE ADDRESS

#### ESSENTIAL PRACTICES FOR THE PEACEFUL HOME

A peaceful child is a child of peace.

The home is the primordial space where the child is educated for a life of peace. It is vital that children experience it in their first years of life or it will be difficult to conceptualize and embody peace later.

The goal of this presentation is to identify specific practices in the context of the young child's home and family life; circumstances that may prepare the individual to lead — and desire — a peaceful coexistence with other members of the immediate family, and later with the broader family of humankind.
